Overview

Manage
Purrsonal Assistants

Use their skills to extract
Spools of Thread from
Balls of Yarn

Earn Money by using
Spools of Thread to
create Merchandise.

When a player completes their
6th piece of Merchandise,
the game ends. The player
with the most Money wins.

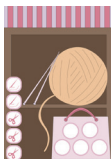

Setup

- Shuffle the Purrsonal Assistants deck and shuffle the Merchandise deck. Create the Boutique by drawing 4 Purrsonal Assistants and 4 Merchandise. Place them face-up in rows next to their respective decks.
- Shuffle the Balls of Yarn deck. Draw 3 Balls of Yarn and place them face-up in a row next to the deck.
- Place all Spools of Thread in the bag. Randomly draw Spools of Thread to fill the spaces on the Balls of Yarn.
- Shuffle the Workshops and deal 1 to each player Workshop-side up. You may look at your hidden objective on the back. Return the remaining Workshops to the box.
- The player who most recently won a game is first player. Play will begin with the first player and proceed clockwise.
- Deal 1 Merchandise card to each player. Deal 3 Purrsonal Assistants to first player, 5 Purrsonal Assistantss to last player, and 4 Purrsonal Assistantss to each other player. You may look at your hand of cards. You may show them to other players when negotiating.

Workshop x1

Merchandise x1

Purrsonal Assistants x3

How to Play

Play begins with the first player and proceeds clockwise. On your turn, perform an **Collect** or **Boutique** action. You may attempt to negotiate for an Collect action, change your mind, and instead do a Boutique action.

Collect

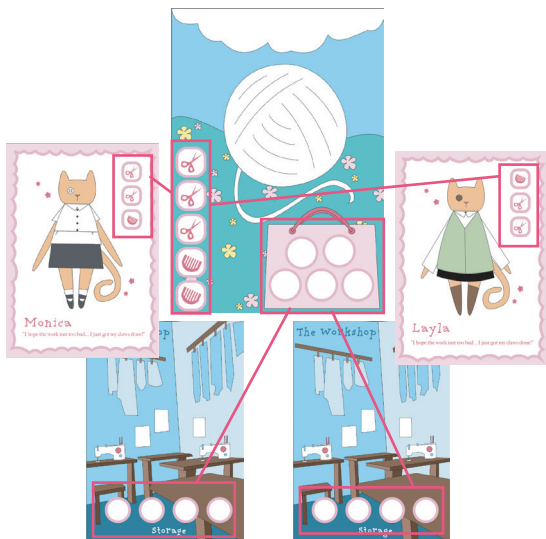

Collect Spools of Thread from one of the Balls of Yarn by playing Purrrsonal Assistants whose total skills meet or exceed both of the Ball of Yarn's skill requirements. You may work alone to collect all the Spools of Thread or negotiate with other players. Players can help by playing Purrrsonal Assistants to meet the skill requirement in exchange for Spools of Thread.

When other players help you collect, you must all agree on how to split the Spools of Thread. After you've agreed, play the Purrrsonal Assistants needed to meet the requirement and collect the Spools of Thread, placing them in your Storage. If you do not have enough available Storage spaces, immediately discard Spools of Thread of your choice to the pool of thread discard pile next to the bag until you are at capacity (do not discard into the bag).

Then discard the Ball of Yarn and the played Purrrsonal Assistants next to their respective decks. Draw a new Ball of Yarn and fill the spaces with Spools of Thread from the bag. If no Balls of Yarn remain, shuffle the discard pile to form a new deck. If the bag is empty, place the discarded Spools of Thread into the bag.

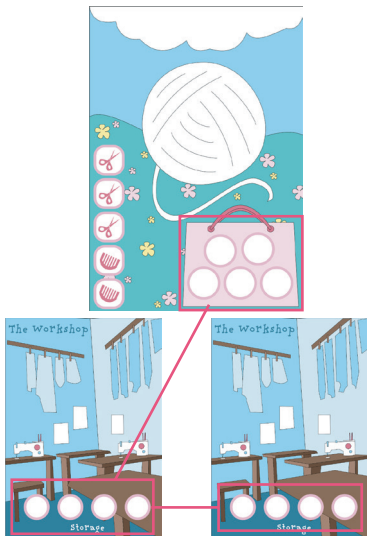

Example Collect Action

On Jeff's turn, he tells the group he would like to collect Spools of Thread from the Ball of Yarn in the meadow. His Purrsonal Assistants can satisfy part of the sewing  and cutting  requirements, but he needs help. Andrew is willing to play one of his Purrsonal Assistants and requests the two purple Spools of Thread in return. Jeff agrees, so both players discard their played Purrsonal Assistants, claim the agreed upon Spools of Thread, and place them in their Storage.

Example Collect Action

You can also negotiate using stored Spools of Thread. The active player and any players helping with the collect action may agree to give Spools of Thread in their Storage to one another. Players that are not helping with the collect action cannot give or receive Spools of Thread.

On Jeff's turn, he offers his green spool of thread to any player willing to play 1 Measuring. Andrew agrees, so they play the Purrrsonal Assistants. Jeff gives Andrew his green spool of thread, which clears space in his Storage, so he can store all 4 Spools of Thread from the planet.

Boutique

Take any 3 Purrsonal Assistants and/or Merchandise from the boutique. At any point during your boutique action, you may sweep a row and then take 1 fewer card. To sweep, discard the 4 Purrsonal Assistants or 4 Merchandise from the boutique, and replace them with 4 new cards. When you finish taking cards, refill the boutique with cards from the Purrsonal Assistant and Blueprint decks. If no cards remain, shuffle the discard pile to form a new deck. You can never have more than 8 cards in hand. If you exceed 8 cards, immediately discard cards of your choice until you are at capacity.

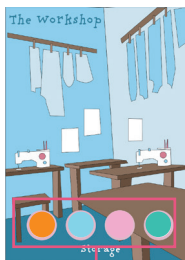

Example Boutique Option:
Taking Two Merchandise and One Hired Paw

Completing Merchandise

At the end of any player's turn, you may complete a Merchandise card in your hand by discarding the required Spools of Thread from your Storage. If you have more Spools of Thread than Storage spaces, discard excess Spools of Thread before completing Merchandise.

Reveal the completed Merchandise to show that you met the requirement, and place the required Spools of Thread in the spool of thread discard pile. Once you complete a Blueprint, you may use its Upgrade for the rest of the game. If you gain multiple of the same Upgrade, their abilities stack. An Upgrade cannot be used on the same turn that its Merchandise is completed.

Discard These
Spools of Thread

Required
Spools of Thread

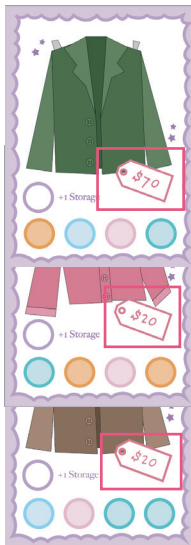

Can use Upgrade

Game End

When a player completes their 6th Merchandise, all players have an opportunity to complete Merchandise, and then the game ends. You cannot complete a 7th Merchandise. Flip your Workshop card, and calculate your total Money by adding:

- Money on completed Merchandise.
- +\$10 per Spool of Thread in your Storage.
- +\$10 per Spool of Thread on your completed Merchandise that matches your hidden objective.

The player with the most Money wins. If tied, the player going later in turn order wins.

+\$10 per
